Pennsylvania the Battleground.

Philadelphia, Pa., Nov. 2.—For the first time in her history Pennsylvania has this year supplanted New York, Ohio, Indiana and other of the so-called doubtful states as the real battleground of a presidential election. For almost half a century the only question in connection with an election in the Keystone State has been as to the size of the Republican majorities. Today, a fact almost without precedent, real doubt exists as to which one of the three leading candidates for President will obtain the electoral vote of this state.

Eight party columns with presidential electors and one blank column will be on the Pennsylvania ballot next Tuesday. The electoral tickets will appear in the following order: Republican, Democratic, Prohibition, Socialist, Bull Moose, Industrialist, Roosevelt Progressive and Washington. The Washington, Bull Moose and Roosevelt Progressive electoral tickets are the same, and the Republican and Washington State tickets are identical. The Keystone party did not nominate an electoral ticket and the Lincoln electoral and state tickets were withdrawn. The Keystone party has a state ticket, however. The state election is for state treasurer, auditor general and four congressmen-at-large.

DOES NOT KNOW WHICH IS THE REAL BOARD

Oklahoma City, Nov. 2.—As a result of the present mix-up over the state board of education, A. A. Stewart, superintendent of the state school for the deaf at Sulphur, is in a quandary as to whose orders he shall obey, and has asked Attorney General West for advice. He says that he has received instructions from Supt. Wilson to report to L. T. Huffman, secretary of the "old board," and from J. F. Warren, named as acting secretary of the new board, to report to him.

The attorney general advised him that under the ruling of Judge Clark in dissolving the temporary restraining order against the members of the new board, that board is the legal board and its instructions should be followed by all persons under its authority.

Taft at Newark Exercises.

Newark, N. J., Nov. 2.—With a military parade and interesting exercises a magnificent bronze statue of Washington, a gift to the city of Newark from the late Amos H. VanHorn, was formally dedicated today. President Taft and a number of other notable guests, as well as a large concourse of citizens, were present. The dedication ceremonies were presided over by Justice Francis J. Swayze, of the New Jersey Supreme Court. Mayor Haussling delivered the introductory address. President Taft addressed the assemblage and pronounced a splendid tribute to the patriotism and military genius of Washington. The statue was unveiled by Associate Justice Mahlon Pitney of the Supreme Court of the United States.

The monument has been erected on a conspicuous site in Washington Park. The statue, which is the work of J. Massey Rhind, the New York sculptor, represents General Washington standing beside his horse. The memorial is twelve feet high, the figure of Washington being nine feet in height. In stead of a pedestal, a five-pointed fortress mound serves as the base of the statue. In the facade of the mound there is embedded a bronze descriptive tablet.

REMARKABLE CAMPAIGN

New York, Nov. 2.—With the close of the last week before election, the last week of one of the most remarkable political campaigns the country has ever known, little is left to be done but indulge in forecasts and wait for the returns. As the saying is, it's all over but the shouting. Nobody knows as yet who will do the shouting, but the minds of the people are made up, the campaign is at an end, and the election of Tuesday will only be to secure an official record of a decision already made.

Five national conventions have nominated candidates for president and vice president of the United States. William Howard Taft of Ohio and James S. Sherman of New York, were renominated for president and vice president, respectively, by the Republicans at Chicago. Woodrow Wilson of New Jersey and Thomas R. Marshall of Indiana were named by the Democratic Convention at Baltimore. The new Progressive party, in convention at California for vice president. The Prohibitionists at their convention at Atlantic City put up Eugene W. Chafin of Illinois for president and Aaron S. Watkins of Ohio for vice president. The Socialist party at Indianapolis brought out the names of Eugene V. Debs of Indiana for president and Emil Seidel of Wisconsin for vice president.

This year of 1912 has seen such a sundering of political ties as does not often occur in America, but it is all referable to so-called "progressivism," just as slavery was responsible for the diverse tickets in 1860 and the monetary question for the split-up of the Democratic party in 1906.

The Democrats this year present a more united front than for many years past. Though the campaign that preceded the Baltimore convention was an exceedingly spirited one, it apparently left no bitterness, for the restoration of harmony was almost instantaneous. Within a week after the delegates adjourned at Baltimore the several factions had come together with the single purpose of electing the national ticket. The unsuccessful opponents of Wilson at Baltimore took to the stump in his behalf and the Bryanites and anti-Bryanites of the olden days have repeatedly spoken from the same platform during the campaign that has just closed.

The Republican party on the other hand, has found itself divided for the first time since the civil war. The "insurgents" who bolted the Republican national convention at Chicago after the renomination of President Taft met in the same city a few weeks later and formed the Progressive party. Colonel Theodore Roosevelt, who had fought vainly to secure the "regular" Republican nomination was named for president and Governor Johnson of California was selected as his running-mate.

The situation on the Republican side then became complicated by the fact that the political affiliations of the electors in many of the states were in doubt, being claimed by both the Taft and Roosevelt factions. The electoral controversies were finally settled in a manner more or less satisfactory to both sides, though new and more serious perplexities may result from the same source in case the balloting is close next Tuesday.

A court decision has left Taft without representation on the electoral ticket in California where the Roosevelt electors appear as Republicans. In South Dakota and Nebraska the Taft electors appear on the ballot by petition. In the other States where controversies existed the original Roosevelt electors have been replaced on the Republican ballot by Taft supporters.

The next electoral college will be composed of 531 members, and the successful candidates for president and vice president must secure a total of at least 265 to be elected. With three leading tickets in the field, instead of two as in former presidential campaigns of late years, it is easily within the range of possibilities that none of the three might secure a sufficient electoral vote and that the election of the next president and vice president would devolve upon the national house of representatives.

Besides the presidential succession there will also be decided on

Tuesday the question of the control of the house of representatives. There will be 435 representatives in the next congress, all of whom will be elected on Tuesday, except the few in Maine and Vermont, which states hold early elections.

The terms of one-third of the members of the United States senate expire next March. In a few States their seats have already been filled, but in many others the complexion of the legislatures elected on Tuesday will decide.

TURKS CLAIM A VICTORY

COMMANDER SAYS HE HAS RE- TAKEN LOST GROUND AND PUT ENEMY TO FLIGHT.

Constantinople, Nov. 1.—The Turkish army has recaptured the town of Bunarhissar from the Bulgarians and also has defeated the Bulgarians in the vicinity of Visa, according to dispatches received here this afternoon from Nazim Pasha, commander in chief of the Turkish forces.

Nazim's dispatches declare the Bulgarian losses were heavy and that all the Turkish army corps have now been ordered to advance.

The dispatches announcing the recapture of Bunarhissar was sent by Nazim Pasha at 4:45 o'clock this afternoon. It said also that the Bulgarian column had been cut off. A telegram from Nazim sent at 2 o'clock this afternoon said:

"Our right wing has been advancing since yesterday from Visa. Mahmud Muktar Pasha's army, has vanquished the Bulgarian column and now all of our army corps have been ordered to advance."

Bulgarians Being Surrounded.

A communication by Nazim Pasha to the Sultan during the morning stated that the Bulgarian forces gradually were being hemmed in on four sides. It especially commended the conduct of his troops at Visa, who were said to be fighting with splendid devotion and courage.

A still earlier dispatch from the Turkish commander in chief, dated Thursday, said the Bulgarians had sustained heavy losses in Wednesday's fighting at Bunarhissar and that a quantity of artillery pieces, rifles, ammunition and other equipment had been captured by the Turks.

Bunarhissar is about forty miles southeast of Kirk-Kilissch.

MCKENZIE AND BAKER CONVICTED

TULSA TRIAL RESULTS IN LIFE SENTENCE FOR TWO AC- CUSED MEN.

Tulsa, Okla., Nov. 1.—Joe Baker and Guy D. Mackenzie will spend the remainder of their lives behind prison bars for the murder of Charles T. Reuter.

The verdict of the jury in the noted murder trial which has been in progress here for several weeks was given to the court at 10:12 o'clock this morning, finding Baker and Mackenzie guilty and fixing their punishment for life at hard labor in the state prison.

Only two ballots were taken by the jury in reaching its verdict. These were taken Thursday night. The verdict was not delivered to the court however, until late Friday morning. Immediately after the verdict of the jury County Attorney Pat Murphy requested the court to have Mrs. Reuter remanded to custody without bail. This the court took under advisement.

Attorneys for the defense announced they would immediately ask for a new trial, argument for which will probably be made Friday afternoon. Immediately after the defense moved to have the verdict set aside because it was handed to the judge by a court bailiff instead of by the foreman of the jury. The motion was promptly overruled.

WELL KNOWN CITIZEN OF SULPHUR SPRINGS DIES

This morning J. D. Lasater received a message stating that Dr. W. M. Oliver, his wife's father, had died at Sulphur Springs, Texas. Mr. Lasater took the next train for Sulphur Springs.

Deceased was an old and highly respected citizen of Sulphur Springs. He was seventy-two years of age, but until a month ago was very active for a man of his age. At that time he was stricken with apoplexy and later was partially paralyzed. Mrs. Lasater was summoned to his bedside at that time and has remained there ever since.

GUTHRIE CLAIMS TITLE TO CAPITOL SITE

The Oklahoma City papers have claimed that Guthrie had no title to the tract of land offered for capital purposes, and submitted some evidence to that effect. It seems, however, that Guthrie does not admit the truth of the allegations as is evidenced by the following wire received by the News this morning:

Guthrie, Okla., Nov. 1.—News, Ada, Okla.: A statement was sent to Secretary of State Harrison tonight for official filing signed by Mayor Nissley of Guthrie, President Holman, of Commerce, former Chief Justice Burford, presidents of all Guthrie banks and several attorneys to the effect that Guthrie has owned and been in possession of the land offered to the

state for a capitol site ever since the country opened and the record of the United States land office show the tract to be reserved and dedicated to the City of Guthrie for public purposes, and the title of city to said reserve is absolute. The city through its proper officials has executed a warranty deed to the state of Oklahoma for said property including the improvements placed thereon by the city at the cost of \$250,000 and in said deed warrants the title to the state and will make said warranty good in every way. C. M. Sarchett.

The ministers of Muskogee are waging a lively controversy over the question of whether a regular old fashioned hell exists or not. As in times past a good share of the population will go merrily on its way there.

WHERE IS THE BLAME.

"For the past fifteen years the condition of government in 'these United States' has been the joke of the civilized world. It has been a government by the methods of Tammany Hall, for the purposes of public plunder. Both the Republican and the Democratic party machines have been in the control of the plunderers. Both have shared in the loot. And both are still under that same control and serving the same masters.

"It is useless to vote for Taft, and if you elect Wilson to the White House, he will be as helpless there as Cleveland was. Congress will still be ruled by the Plunderbund. The power behind the throne will not be changed."

Thus writes Harvey J. O'Higgins in an appeal for Roosevelt. The government has been in the hands of grafters fifteen years, he says, and is probably about correct, but how in the name of reason can Teddy be expected to improve matters? It must be remembered that he occupied the White House nearly half of that period of fifteen years, and Mr. Higgins admits that the period of plunder existed then. If he was powerless to stop it then, how can he be expected to do more with another trial.

BETTER THAN SPANKING

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, South Bend, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. FORECAST FOR THE COMING WEEK

Washington, D. C., Nov. 2.—What has been the most eventful political campaign the United States has seen in years will terminate Tuesday, when the vote of the people will decide whether the Republican administration of William H. Taft is to have a renewal of its lease of power, or whether the Democrats, under Woodrow Wilson or the new third party, under Theodore Roosevelt, will assume the reins of office.

On the same day the representatives who will sit in the Sixty-third Congress will be elected, also State Legislatures that will have the selection of many United States Senators. Twenty-nine States will elect governors, and the most of the others will choose minor state officers.

Wisconsin, Michigan, Kansas, Oregon and Arizona will vote on proposed constitutional amendments granting the right of suffrage to women. Numerous other states will vote on proposed amendments or laws of less general interest and importance. A proposal for state-wide prohibition is included in the thirty or more measures to be passed upon by the voters of Colorado. In Oklahoma the fight between Guthrie and Oklahoma City for the State capital will be determined by the voters.

Judge Staples of Roanoke, who is to complete the trial of the men connected with the shooting up of the Carroll county courthouse and the killing of six persons at Hillsville last March, will call the cases of Sidney Allen and Wesley Edwards, the two remaining outlaws, in Wytheville, Va., next Thursday. Wesley Edwards will be tried first. Then will come the hearing of the case against Sidney Allen, who is regarded as the leader of the band of outlaws.

What promises to be another noted criminal case is to come up in the United States court at Chicago Wednesday, when George W. Fitzgerald, former teller of the Federal sub-treasury in Chicago, will be placed on trial on a charge of embezzling \$173,000. This amount disappeared from the Chicago sub-treasury more than five years ago and never has been accounted for.

Saturday will see the annual celebration of Lord Mayor's Day in London, when Sir David Burnett, the Lord Mayor-elect, will be installed in office with all of the pageantry and quaint ceremonial that has attended similar occasions in the British metropolis for several centuries.

The week will be observed in New York City as "Suffrage Week." Each day and evening public meetings in the cause of equal suffrage will be held and the celebration will wind up with a great parade on Saturday. It is expected that more men and women converts to the cause will be in line than ever marched before in the interests of women's suffrage.

Several large conventions are scheduled for the week. Those of most importance will be the National Farm Congress in New Orleans, the annual meeting of the American Prison Association, in Baltimore, and the annual conference of the Association of American Universities, in Philadelphia.

A Summer Idyl is the subject of the great rural comedy that will be presented at the DeSota this evening. It is seldom that a picture is shown with half as much laughter to the minute as is in this one. For a good western play, you can't beat The Band Man and the Ranger. Williams and Rose do everything except make the pictures talk.

Then in the fall of 1907 there was another panic under the Roosevelt administration and under a Republican high tariff. Were the railroad men protected from loss of jobs? Scarcely! The next year, 1908, the number of railroad employees fell off by 235,799, a decrease of 112 per 100 miles against 71 per 100 miles in 1894, the year when the results of the panic of 1893 were felt most severely.

So what is the use of trying to make fools of railroad men or of any other Americans by distorting figures? The truth is that these fluctuations were not due to high tariff or low tariff.

The program of the new party legalizes monopolies and systematically subordinates workmen to them and to plans made by the government both with regard to employment and with regard to labor.—Woodrow Wilson.

DANGER AHEAD! SIGNAL'S A FAKE

Republican Circular Warning Railroad Men Is Palpable
False Alarm.

EASY TO MAKE FIGURES LIE

Old Trick of Setting Red Lights on a Clear Track—Facts Presented So Railroad Men May Judge.

The Republican national committee is distributing circulars among railroad men predicting a panic and hard times in the event of Democratic victory. Among their statements intended to mislead railroad men is this:

RAILROAD MEN, STOP! LOOK! LISTEN! LEST YOU FORGET
\$71,338,879.

Big sum of money, isn't it? Nevertheless it's exactly that much more paid to the railroad employees of the United States under the administration of President Taft in 1910 than was paid in 1907, the year before Mr. Taft became president.

This is a sample of the old time Republican habit of claiming credit for all natural progress—credit even for good crops.

It is true that in 1910 the wages of railroad employees amounted to some \$71,000,000 more than in 1907. But that represented three years' progress.

In 1906 the amount paid to railroad employees was \$900,801,653. In 1907 it was \$1,072,386,427. This was an increase of \$171,584,774 in a single year preceding the Taft administration, amounting to more than double the increase during three years of the Taft administration.

Isn't it obvious that they are presuming you won't have the statistics at hand to inform yourself and that therefore they will fool you into believing that the Taft administration made railroad men's prosperity?

Then stop, look, listen again! In four years preceding Taft's administration 1,193 miles of railroad were sold under foreclosure. The stocks and bonds of these roads amounted to \$47,031,000.

Under three years of the Taft administration 5,115 miles were foreclosed, involving \$384,434,562.

The Tariff Hump Again.
A still more palpable presumption by Republicans that railroad men are fools is the following statement in their circular:

The total number of railway employees in 1896 was 75,034.

The total number of railway employees in 1911 was 1,899,809.

Under Republican administration the number of railway employees has increased from 75,034 during a Democratic administration to 1,899,809, an increase of 944,775, nearly 1,000,000 men.

Do you want a Democratic president and return to conditions and number of employees of 1896?

The Taft people take 1895 because the last Democratic low tariff bill, known as the Wilson bill, went into force in 1894, and they would like to have railroad men believe that a Democratic tariff revision made the hard times.

What the Facts Prove.
Now, what are the facts? The "hard times" began back in 1890, right after the Republican high tariff, known as the McKinley tariff, went into effect. Grover Cleveland, the last Democratic president, was elected in 1892. The panic came on in 1893, not as a result of Cleveland's election, but as a result of conditions that had been growing steadily worse under Republican rule. The panic was over before the Democratic tariff bill was passed in 1894, and after that prosperity began to return.

Now let us make a fair comparison of these railroad figures.

In 1893, under the Republican high tariff, and with the panic on, there were 873,602 railroad men employed, or 515 per 100 miles.

In 1894, part high tariff and part low tariff, the number fell to 779,608, or 444 for 100 miles—decrease 71 per 100 miles.

From this year on, so long as the Democratic administration was in power, conditions improved steadily.

In 1895 the total number of railroad men at work was increased to 785,034. In 1896 it was 826,820.

In 1897 McKinley came into the presidency, and the Republicans set about to "redeem the country" with high tariff. And in 1897 THE TOTAL NUMBER OF RAILROAD EMPLOYEES FELL OFF TO 823,476.

Republican Panic of 1907.

Then in the fall of 1907 there was another panic under the Roosevelt administration and under a Republican high tariff. Were the railroad men protected from loss of jobs? Scarcely! The next year, 1908, the number of railroad employees fell off by 235,799, a decrease of 112 per 100 miles against 71 per 100 miles in 1894, the year when the results of the panic of 1893 were felt most severely.

So what is the use of trying to make fools of railroad men or of any other Americans by distorting figures? The truth is that these fluctuations were not due to high tariff or low tariff.

The program of the new party legalizes monopolies and systematically subordinates workmen to them and to plans made by the government both with regard to employment and with regard to labor.—Woodrow Wilson.

MAKES THIRD FORTUNE IN OIL FIELDS

Tulsa, Okla., Oct. 26.—William H. Roeser, the "Coal Oil Johnny" of Oklahoma, who made a million in oil in Oklahoma and spent it in less than four years, has come back. Associated with some prominent producers of Independence, Kan., he has made a big strike in the Cleveland field. His first well is said to be a 1,000-barrel producer. Roeser and associates are said to have a large area of promising looking acreage and the chances are good that the young plunger, whose spectacular career until he went broke two years ago attracted attention in many states, will soon find himself possessed of another fortune. This will have made three fortunes made in oil by him. He is but 37 years of age.

His first strike was in the Cleveland district. When he left Cleveland to come to Tulsa, some six years ago, Roeser had spent his last cent and was heavily in debt. He obtained some acreage in the Glenn oil field that turned out to be one of the best properties in the field. Everything that Roeser touched in the Glenn field turned to gold. At one time his income was \$30,000 a month.

Tulsa people will never forget the princely manner in which Roeser spent his money. He purchased a \$100,000 home, the finest in the city. To obtain a bluegrass lawn he shipped in sod from Kentucky by the carload. He made a bonfire of the furniture he purchased with the house, worth at least \$6,000. He purchased nearly a dozen high priced automobiles in seven months. When he traveled Roeser carried a retinue befitting a foreign potentate. He would take an entire floor of large hotels for his party and would lavish tips on hotel employees; at home he would entertain on a magnificent scale. He gave great sums to charity. Oftentimes he would hire a special train to take him to the oil fields.

Under three years of the Taft administration 5,115 miles were foreclosed, involving \$384,434,562.

The Tariff Hump Again.
A still more palpable presumption by Republicans that railroad men are fools is the following statement in their circular:

When Roeser came to the end of his career and went into bankruptcy few persons who were familiar with his career were surprised. One by one he had sold outright his best producing properties and his income began to dwindle. Roeser left Oklahoma after his second failure and moved to St. Louis. From thence he began operating in the Illinois fields. A little over a year ago he returned to Oklahoma. Here and there he picked up some promising looking wildcat land that has since proven good.

Teachers Will Be Paid.

Oklahoma City, Ok., Nov. 1.—Salary claims for teachers and others in connection with state institutions, when regularly approved by State Superintendent Wilson, as president of the State Board of Education will be honored by State Auditor Leo Meyer. It is not necessary that these claims, he says be passed upon by the state board, therefore, the controversy as to which is the legal organization is not an issue. Auditor Meyer is holding up, however, claims of the members removed by Gov. Cruce until it is legally settled which board is authorized to serve. Such of the official mail as can be delivered under proper address is going to the old board, while other mail is being held by the postmaster until he receives instructions.

Old board members still have their petition in the Oklahoma County District court and according to a statement made tonight will take further action in connection with it. The new board meets again Nov. 12, and in the meantime State Superintendent Wilson announces the old board will continue to transact business whenever necessary.

The Ubiquitous Sea Lion.

The following story is taken from the November American Magazine:

"Sunday is a dull day and the city editors had a habit of detailing men to go to the Zoological gardens and get animal stories for Monday morning. The reporters got together one Sunday morning and persuaded the head animal keeper to let them publish a fake story. It was rather commonplace, concerning the alleged escape of a non-existent sea lion from the pool to open water.

"Fake," said the managing editor, as he read the story. "Let's make it a good one."

"Thereupon he sent telegrams to every country correspondent on that water or its tributaries merely inquiring if anything had been seen of the escaped sea lion. The response was appalling. The correspondents needed only the hint. That day the sea lion was seen by at least twenty correspondents—and Berghand printed all the reports, one after another. Thus spurred the correspondents went to it in earnest. The following day the sea lion was reported at every point with two hundred miles. In five days the lion was sighted over half the world and an enthusiast at Southampton cabled that he was heading toward the North Sea. Then a cruel correspondent up on Lake Superior killed him and wired that he was sending the skin as proof. I always suspected that the managing editor did it himself."

This afternoon Hon. Chas. Friend delivered a strong Wilson speech to a large crowd on the street. Mr. Friend is an able speaker and his address was in the nature of a strong appeal to the voters. He was introduced by J. W. Bolen, who took occasion to fire a few hot shots into the enemy.

CLOSE CALL IN DANGEROUS RUNAWAY

This morning West Main street was the scene of a runaway in which Mrs. John Sweeney and two children barely escaped serious, if not fatal injury. The mule team attached to the wagon became frightened near the railroad and went up the street at break neck speed until at the corner of Townsend they ran into another wagon, damaging it considerably but the one to which they were hitched suffered no particular damage. Neither Mrs. Sweeney nor the children were hurt in the least. Mrs. Golden was also in the wagon when it started, but she jumped out and was uninjured.

Fallacies of His Argument Dissected in Counter Appeal to Merchants.

FREE TRADE NOT PROPOSED

Panics Occur Without Regard to Tariff Revision—Business Men Directing the Wilson Campaign.

To the Merchants and Business Men of the United States:

Mr. John Wanamaker has issued a "note of warning" against the "destruction of industries" which he says will follow the election of Woodrow Wilson.

To hark back twenty years in American industry is to deal with ancient history. During this score of years American industries have advanced so far in competing power that a comparison even with 1890 is ridiculous. In that year our exports of manufactures were less than two hundred millions in annual value; today they are at the rate of twelve hundred millions, a gain of 600 per cent.

How is disaster to come from the competition on our ground of those manufacturers with whom we are successfully competing on their ground? It is a poor time to cry distress when we are exporting steel manufactures at the rate of a million dollars daily.

During Mr. Cleveland's first administration, 1895 to 1899, there was no panic—there was only prosperity. But Mr. Wanamaker forgets this. Mr. Harrison, a Republican, succeeded in 1899, serving till 1903. During this time Mr. Wanamaker himself was in President Harrison's cabinet, and it was then the conditions matured which resulted in the panic of 1903, four months after Mr. Cleveland took office the second time.

Mr. Wanamaker quotes from various sources certain records of distress, but neglects to say that every one of them bears a date not less than six months before the tariff bill of 1894 became a law and, as a matter of fact, before its terms were known.

The truth is that neither a Republican administration nor a high tariff is any protection against panics, and they occur as everybody knows, except Mr. Wanamaker, quite without regard to tariff changes. Our very worst panics have occurred under Republican administrations.

In 1908 the Republican party in its platform declared "unequivocally for the revision of the tariff," but this promise, soon so recklessly broken, had no deterrent effect upon improvement in business conditions. It cannot therefore be said that the mere threat of tariff revision causes distress, for there was no doubt in 1908 not only that the tariff was to be revised, but that it was to be revised downward.

Ignoring the Present.

Most important, however, in Mr. Wanamaker's letter is his failure to refer to existing conditions. He promises all sorts of disaster in a very general way, but has nothing to say about current facts of industry. For example, it has been well known since 1910 that the public demanded the downward revision of the tariff which Mr. Taft promised and later denied. A Democratic house of representatives was elected in 1910 on that special issue. That house passed a series of tariff measures, some of them over the president's veto. On each of these measures a number of Progressive Republicans voted with the Democrats. One of these bills reduced the duty on steel. Yet, although a revision of the steel schedule was and is pending, the steel industry has revived, prices are advancing and, stranger of all, from Mr. Wanamaker's point of view, large investments are now being made in new steel plants.

If the danger that Mr. Wanamaker foresees is real, how is it that these investments proceed? How is it that manufacturers all over the country are increasing their plants?

Mr. Wanamaker seems ignorant also of the actual labor conditions. High wages are not necessarily a sign of prosperity. As Professor Fisher points out, a century and a half ago laborers in Rhode Island received a wage of \$10 daily, but it took four days' work to buy a pair of shoes. Nor are high wages the result of the protective tariff. The Lawrence strike brought out this fact vividly. There the textile manufacturers have a very high protective tariff to favor them, but the wages of their employees were shown to be indefensibly low. A fair comparison is that between England and Germany, both thickly populated, one having no protection and the other high protection. How do wages stand in these countries today? Those in Germany are 17 per cent lower than English wages, and not only so, but the cost of living in Germany is 17 per cent higher, so that the protected German workman earns the smaller wage and pays the higher cost.

Free Trade Bogy.

Is it not truly ridiculous for Mr. Wanamaker to raise the bogy of free trade? No party advocates that. Mr. Wanamaker must know that the Democratic cotton and woolen bills are not free trade measures in any sense. The fact is that the Republican plat-

CONDITION OF COTTON

CROP NOT SO GOOD

With 198 reports from crop correspondents over the state, the board of agriculture's crop bulletin showing conditions on October 25 places the prospective yield of cotton compared with a normal crop at 71.9. This is a decrease from the previous month, when the prospective yield of cotton was given at 79.5. Figures given in the September report came from 228 correspondents. The condition of the cotton crop in August was 80.1 per cent., and in September 65.6. No condition figures are given for this month. The proportion of the normal yield destroyed by boll worms is given at 15 per cent.

The crop report for October places the average yield of corn over the state at 19 bushels to the acre, and Irish potatoes 44 bushels to the acre.

The yield per acre of kafir corn in the grain is given at 23.9 and in forage 2.2. The crop report of September says:

"The production of corn compared with other fall crops is given at 67.7. Production of cow peas, kafir corn, broom corn, sorghum, onions, peanuts milo maize, as compared with other fall crops, ranges high.

FILENE ANSWERS MR. WANAMAKER

Noted Boston Merchant Appeals to Business Men With Logic for Wilson.

STABILITY WHAT WE NEED

Full Measure of Prosperity Cannot Be Realized Until Country Is Satisfied With Genuine Tariff Reform.

[Edward A. Filene is president of Edward A. Filene & Son, Boston, Mass., one of the largest retail dry goods stores of the country. He is a former president of the Boston chamber of commerce, member of the National Council of Commerce, paper league, Cleveland chamber of commerce and a member of a score of clubs and other organizations. He is the author of many articles on business, civic, labor and industrial relations.]

To the Merchants and Business Men of the United States:

John Wanamaker's appeal to you in the New York Herald of Oct. 4, calling for a continent wide rally to the support of Mr. Taft on the part of the merchants and business men of the country, has no doubt received your serious attention. It has seemed to me that those of us in business who believe Mr. Wanamaker's position is mistaken should make known our position and the reasons for our firm belief that the business of the country will be best served by the election of Governor Wilson to the presidency.

There is every reason to believe that we are on the eve of abundant prosperity, and in my opinion one thing likely to prevent the setting in of such a period would be the re-election of President Taft and the one thing that would make prosperity most certain would be the election of Governor Wilson. This opinion is based upon my belief that for the business world nothing else is so important as stability.

Stability is impossible with Mr. Taft as president; there has been no feeling of stability during his administration. It is not that the president is a disturber of conditions or that he is not sufficiently careful of the business interests of the country. The absence of any feeling of stability during the Taft administration has been and is due to a widespread belief that there are certain reforms which the great body of people want and that the general feeling of unrest will not materially lessen until these reforms are accomplished.

President Taft's re-election would not create any feeling of assurance that there would be a satisfactory solution of the tariff question. By a satisfactory solution I mean a removal of unjust and unnecessary taxation.

Entirely apart from his veto of tariff legislation the mere fact that the president signed the Payne-Aldrich tariff bill and later declared that it was the best tariff bill ever written, has made it impossible for the public to have any considerable confidence that they may expect real relief from him.

Roosevelt's Record. Upon this matter Mr. Roosevelt's record is not much better than that of Mr. Taft, nor is his present position on the tariff much more promising than that of the president. The agitation for reform began while President McKinley was still in office and had then reached such proportions that the country in general approved of the advanced position McKinley took in his Buffalo speech. It increased steadily during the seven and a half years in which Roosevelt was president, but he made no attempt to give the people any relief from tariff exactions. He does not now offer any definite tariff program. These things lead me to believe that his election now, like the re-election of Taft, would mean four years more of tariff agitation.

With Wilson elected one may reasonably expect a satisfactory solution of the tariff question. His expressions on this matter show a full conception of the country wide demand for tariff reform, a thorough knowledge of the ways in which tariff laws are made and a determination to secure as promptly as possible the much needed legislation. At the same time Governor Wilson has shown that he recognizes as a fact the intimate relation which tariff has been made to have to the structure of business in this country and that he would keep this fact in mind in handling tariff legislation.

Governor Wilson's election would mean and would be taken by the country at large to mean that we would have very early in his administration a revision of the tariff which would give the country the relief it is demanding and which at the same time would be made carefully and with a view to preventing business disturbance.

Until this is done, or at least until the country feels sure that it is to be done, there cannot be that stability which is so necessary to the fullest development of an era of prosperity.

Truth About Prosperity. Certainly the facts do not warrant Mr. Wanamaker's conclusion that a Republican administration insures prosperity and that the periods of trade depression which the country has seen from time to time have been due to Democratic tariff revision. Mr. Wanamaker's appeal is based largely on the theory that Democratic tariff revision was responsible for the hard times of 1893. In the face of the facts no as-

IRVING FISHER FOR WILSON

Noted Yale Economist Appeals to Fellow Progressives With Clear Logic.

SAYS TARIFF IS THE ISSUE

Contrasts Three Party Programs and Declares Democratic Attitude the Only Progressive One.

By PROF. IRVING FISHER.

[Note.—Dr. Fisher is the noted authority on economics of Yale university. He was a member of President Roosevelt's national conservation commission.—Ed.]

I write not as a Democrat but as an independent Progressive and in the hope that my letter may help other Progressives who are wavering to make up their minds to vote for Wilson. So far as I can see the only hope of progressive legislation lies in the election of Wilson. My reasons, in brief, follow:

1. DEADLOCK IN CONGRESS.—If it were possible to elect Mr. Taft there would merely be repeated the same deadlock with congress and failure to secure progressive legislation which has been experienced in his first term.

If it were possible to elect Mr. Roosevelt even less could be accomplished, for the reason that he would not have a sympathetic congress.

2. DEADLOCKED ELECTION.—To be still more practical, we should consider that the result of us independent voters voting for Taft or Roosevelt instead of for Wilson may be to prevent any one of the three from being elected.

3. THE TARIFF.—If, on the other hand, we independent Progressives unite for the most part in voting for Wilson he can be elected, and, if elected, he can accomplish substantial legislation, because with him will be elected a sufficient number of Democrats to give a majority in both houses. To this my Bull Moose friends reply that not all Democrats are progressives and will not carry out a progressive platform.

This argument overlooks the fact that the paramount issue of this campaign is the tariff and that progressive tariff reform means progressive tariff reduction. It is just because the Democrats have been a party of negation, so far as the tariff is concerned, that they, if anybody, can be trusted to reform it downward.

Mr. Roosevelt would be equally unable and far more unwilling than Mr. Taft to reduce the tariff. In his seven years in office he left the tariff untouched, and now he speaks primarily as a protectionist and not as a tariff reformer. He yields grudgingly to the demand for tariff reduction, but gives no clear argument for it. Instead, he repeats the old fallacious arguments to make our poor workmen believe that a high tariff raises wages.

Governor Wilson and his party, on the other hand, are ardent tariff reformers. In this respect the Democratic platform is the only progressive platform of the three.

Why should we blind ourselves by the introduction of numerous other issues which could not be settled in the present campaign when we have before us the greatest issue of all, the tariff, which CAN be settled?

4. ISSUES ECONOMIC.—Wilson's grasp of the problems of the hour far surpasses that of Roosevelt or Taft. Mr. Roosevelt has frequently admitted that economic problems such as the tariff, the cost of living, the currency and the economic problems connected with trusts not only have no attraction for him, but have never been understood by him.

5. THE PEOPLE'S INTERESTS.—Wilson is more truly democratic than Roosevelt and more untrammeled in his devotion to the interests of the people as a whole. . . . Those who accuse Wilson of recently adopting new democratic doctrines because their popularity would help him personally should learn that, on the contrary, he adopted them (in his fight to democratize Princeton university) when their unpopularity in the circles in which his activities then lay nearly threatened to destroy his influence and career.

6. PURE FOODS.—Governor Wilson and the Democratic party have shown a greater interest than either Taft or Roosevelt in the protection of the consumer against food adulteration and other injuries to the public health. Dr. Wiley, although previously a Republican, now has decided not only to vote for Wilson, but to help him actively in the campaign.

7. THIRD TERM.—To elect Mr. Roosevelt would deal a fatal blow to the useful tradition against a third term. . . . Nor do I think it altogether improbable that if Mr. Roosevelt were again elected president he would, whatever his present intentions, gradually assume the role of benevolent despot. His natural temperament is that of a dictator.

I write as one who still holds personal respect both for Colonel Roosevelt and President Taft and in no spirit of personal hostility to either. I believe that all three candidates intend to do right "as God gives them to see the right," but I think neither Taft nor Roosevelt sees the right as clearly as Woodrow Wilson.

Boils, Rashes, Pimples, Etc.

When the blood becomes infected with any unhealthy humor the effect is shown by boils, pimples, and rashes or eruptions on the skin. Humors get into the blood usually because of an inactive condition of the eliminative members. Thus unhealthy matter is left in the system to sour and ferment and be absorbed into the circulation. Remove these humors and no skin trouble can exist, because its very source is then removed. Boils, rashes, pimples, etc. can never be cured through the application of external medicines, because such treatment can have no possible effect on the blood; the most to be obtained from such measures is temporary relief. S. S. S. CURES all skin affections because it purifies the blood. It goes down into the circulation and cleanses it of every particle of unhealthy matter. Then the blood exercises its normal function of supplying nourishment to the cuticle instead of irritating it with a fiery humor. If you have any skin trouble you could not do better than purify your blood with S. S. S. It does not "patch up" it cures. Book on Skin Diseases and any medical advice free.

NOTICE TO TAX PAYERS.

Your 1912 tax was due November 1st, 1912.

If you want to pay your tax in halves without any penalty you will have to pay your first half before the first day of December, 1912, or you will have to pay penalty on the first half from Dec. 2, 1912, until paid.

If the first half is not paid before January 1st, 1913, all your tax becomes delinquent and will all have to be paid at one time with a penalty of 18 per cent per annum from January 1st, 1913, until paid. If one-half is paid before January 1st, 1913, you will have until June 15th, 1913, to pay the last half, without penalty.

The law requires each and every taxpayer to furnish me with a list of his property when he comes to pay his tax or when he writes to find out what they are, for example; if it is personal property (which means all property other than real estate) give name of town or municipal township you were assessed in. For example: John Smith, personal tax in town of Stonewall, or Fitzhugh township or whatever town or township it might be in.

If you own town lots give me your Lot No., Block No. and name of town it is in or if in some one of the additions, of a town, give name of Addition and town. Example: Lot 1 in Block 2 in Frisco Addition to the town of Francis, Oklahoma.

If you own farm land give me the call of your land, Sec. No., Township and Range. Example: SW 1/4 of Sec. 16, Twp. 2 North, Range 5 East, Fitzhugh Township.

Your 1911 tax receipt will be a good list but check it over and see that all your property is shown on it.

Trusting that each and every taxpayer will be kind enough to do as required, I am yours for the very best service I can render you.

RIT ERWIN,
County Treasurer.

P. S.—If you don't furnish list as required by law, when you write about your tax your letter won't be answered for I will not know what property you own, and if you don't have a list of your property when you come to pay your tax, the man who has his list will be waited on first and I will wait on you when there is no one waiting. 8tw-26td
